

## Dr. Shilpa Patel (Ph.D.)

Corporate Trainer, Author & Business Coach

---

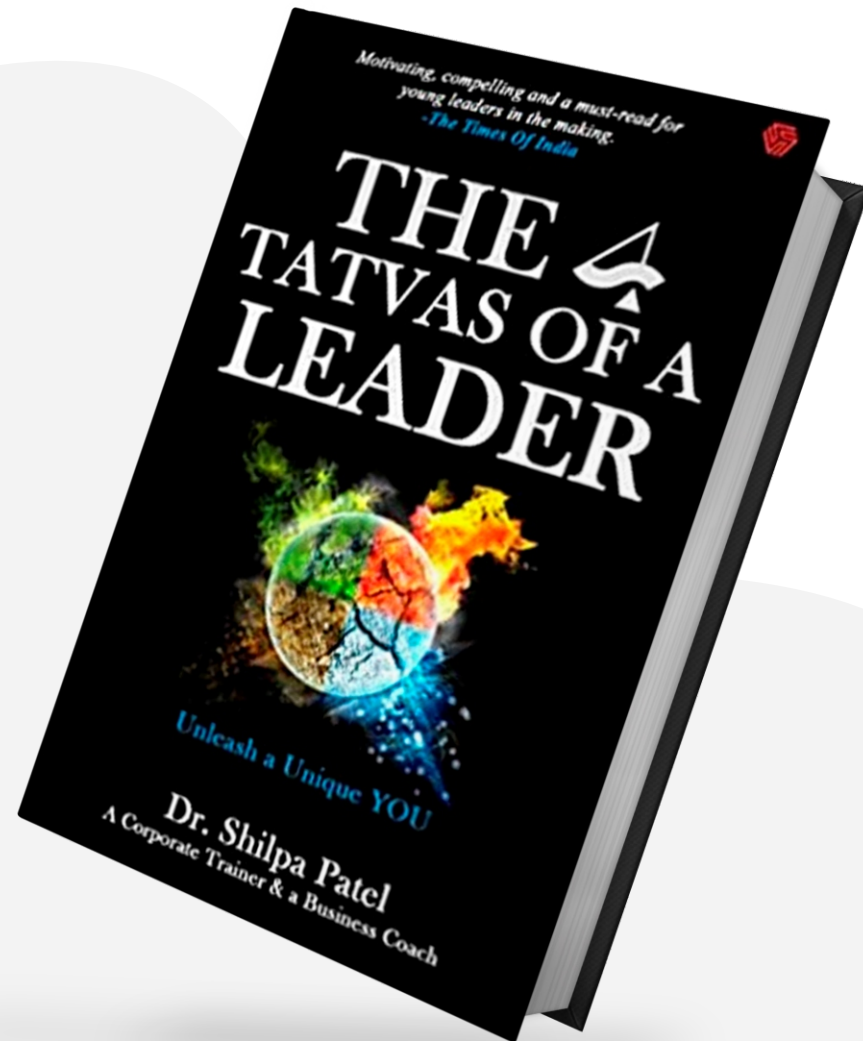

Dr. Shilpa Patel is a Leadership and Executive Coach who sees herself as a “Sherpa”, an expert in Positive Professional Development and Change. With an understanding of human nature, Dr. Shilpa brings a grounded, practical, and strength-based orientation to a wholesome development – leadership, diversity and mentoring, coaching, that leverage her experience to make for effective turnarounds to personal, business and leadership challenges. From coaching for overseas transition to coaching corporate ventures, she makes a visible difference in impact and transformation by working on the 3 T model Track, Train and Transform.

## Career Accomplishments

---

Dr. Shilpa Patel is currently working as Visiting Faculty – Business Communication at CMS Ganpat University, Mehsana. Prior to Ganpat University, she worked with HighHeads Management Consultants as a Consultant Recruiter for 5 years catering to a wide variety of clients across the industries. She is also associated with Perna Smart Consultancy as Marketing Director. Her primary responsibilities include the organization’s marketing and communication strategy designing. She is also responsible for the overall branding and image of the firm.

## The 4 Tatvas of a Leader

---

She is the author of the book “The 4 Tatvas of a Leader”. This book is a reflection of a beautiful story to give youngsters a message about what it takes to set up a venture and then scale it up to take it global. This book is for all budding entrepreneurs and business leaders alike.

## About Pod Guru

---

At Pod Guru, we aim at training young minds, empower them and boost their performance. As training leaders, we place ourselves in your shoes anticipating your requirements and desires. We partner with you to shape your future by keeping an eye on your end goal to ensure that our solution delivers the intended result. Our team creates effective, scalable, engaging, and dynamic training solutions. Our job is to help you drive your goals and be successful. The end result would be of better quality, increased productivity, enhanced profitability, great customer retention, and an empowered workforce.

Driving into unknown territory, we often are in need of a GPS that guides us on the turns we need to take, the best routes available, and the areas we should avoid. The GPS is what we call the Guru Positioning System in the world of businesses. In modern parlance,

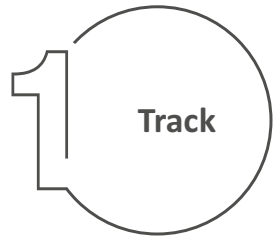

- Leadership management for cultivating strong leaders
- Change management for sustaining the business
- Continuous training for improving productivity
- Aligned administrative policies for creating the smooth & positive working environment

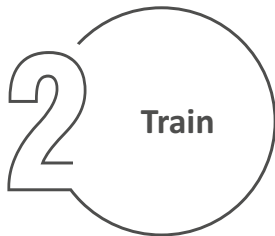

# 3T Model

---

Quickly and effectively monitor performance, helping you make decisions needed to drive desired behavior, improve productivity, and meet organizational goals.

Training with customized learning modules to help reach the full potential of the individual, management, and the organization.

With strategies and training that deliver change, distills our expertise, into a holistic and practical process that can drive the organization change through innovative learning.
